

A LIVING COMMUNITY

March 2019

The heartbeat of Cru is Christ centered community

We cannot emphasize enough how excited we are to see God move in the hearts of students at Kutztown University. We have challenged students to own their leadership roles and they responded. In particular, this semester we are seeing tremendous growth within our community. We not only have more students joining us, but they desire to grow in the Lord.

Last semester I started a men's Bible study that is oriented around discussion and prayer. This semester **Jacob** took up the challenge to run this group himself.

More men are joining this group and loving the Christ centered atmosphere. Now the women are inspired to start their own Bible group as well!

Every Sunday night we have a community group where the men and women get together to discuss life, scripture, and engage in prayer. Often times they will eat together and have a time of worship. Our students truly love one another and desire to help each other reach the campus!

Each Thursday is our Cru night where there is worship, teaching, and time to meet with new students. Our community team (**Kyle and Sianta**) prepare a community event for the week so all people can join the fun and fellowship. Last month they pulled together an amazing Valentines day event as seen below 30+ students attended.

The men made dinner for the women (Scary I know) and they all got dressed up like gentlemen. Everyone expressed how fun it was to just hang out with one another! This community is not only together, but having lots of fun!

We are so blessed to be a part of this community that is growing together. **Emma** is a new student this semester and always expresses her love and sense of belonging in this group. She told me that this group is family to her. Please pray that this group continues to grow!
